

Discover how ASPEC's Graduate Program can set the foundation for a successful engineering career.

Meet our graduates and students

DRISHTI PATEL
Student Mechanical Engineer

FELIX HILL
Graduate Structural Engineer

CLAIRE ABBERLEY
Student Engineer

JUSTIN CAMERON
Mechanical Engineer

We see you as more than just a cv — we see your *potential*.

Aligned with Engineers Australia

- Achieve your CPEng registration, a crucial milestone in your engineering career.
- Benefit from a structured path towards professional recognition and career advancement.

Hands-on experience

- Tackle real-world materials handling projects.
- Gain practical skills that make your theoretical knowledge come to life.

Mentorship

- Benefit from tailored mentoring sessions with an industry leader (Fellow and CPEng qualified).
- Simplify complex concepts with real-life examples and insightful stories.

Industry-specific Training

- Access specialised training and resources tailored to the unique demands and opportunities in materials handling.

Tangible benefits

- Enjoy site visits that provide on-ground learning experiences.
- Participate in professional development workshops.
- Receive company-branded gear as part of your welcome kit.

Annual team meetings and training

- Connect with your peers and leaders at our yearly gatherings, designed to foster team spirit and continuous learning.
